Specialists in Small & Medium Sized Businesses

Welcome to Wren Accountancy Services

Our Vision

We will provide a quality service, constantly exceeding clients' expectations and doing so at a reasonable cost. We will constantly look to provide clients with Added Value Services to improve their profitability and success.

Our Purpose

To make life easier for small and medium sized business owners and to help make their business more successful.

How we can help your business grow

At Wren Accountancy Services your business comes first. We start by getting to know you and your goals. We provide you with high quality, personal service at every stage - and we constantly work to exceed your expectations.

We make accounting straightforward and affordable. We work closely with each of our clients to help them achieve their financial management goals - so they can get on with growing their business.

The Wren Guarantee

We are confident that our vision and purpose is the reality that we provide. If you are not satisfied that we have provided the promised service, we will refund your first 3 months payments in full, no questions asked.

What makes Wren Accountancy different?

With our experience we have looked to create a one stop accounting company which is totally focused on you, our customer. It is with this ethos we have created a service which separates us from other accountants, this includes:

We take the burden of complying with reporting regulations away from you

You don't have to worry about what needs doing and when - we agree what we're going to do for you and make sure everything's done at the right time.

Free software, free initial training and continued support

We'll provide you with a free copy of one of the best book-keeping software packages on the market - and we'll train you how to use it, for free.

Always available to answer your questions

We don't charge you for contacting us. By staying in touch with you we can help make sure our services meet your needs.

Services packaged to suit your business

Using our experience, we have produced a range of packages to suit most small and medium sized businesses.

"We have used three big firms of accountants in the past and have not found the level of support that we required. Within 3 months of appointing Wren Accountancy Services Limited, our Sage system was brought fully up to date, the Reports were tailored to produce information that is relevant to our business and we now have an accountant who we can talk to in our language!" Paul Glover, Director, ICS (Nottingham) Ltd.

All the services you need to run your accounting department

Free up some of your precious time and let someone else do your book-keeping and payroll. You will know in advance what our charges are for the work we'll undertake for you.

Straight forward, jargon-free language

Our many years' experience of supporting business owners means we speak your language

Relevant, reliable information so you can make better informed decisions for your business

We ensure you have the right software and training to help you keep up to date with information about your business. We can provide regular management information, too.

Spending more time WITH you and ON your business

We're constantly developing ideas for improving your business and looking at ways you can save tax.
